7. Project Documentation

Project Name: FitBuddy - AI Fitness Plan Generator using Gemini Models

Detailed Project Phase Documentation

1. Documentation Overview

Documentation explains what FitBuddy does, how it is designed, how it is implemented and how another student can run the project.

Tabulation

Document	Purpose
Project Report	Complete academic explanation
Technical Guide	Implementation details
User Manual	How to use FitBuddy
README	Setup and usage instructions

Coding / Technical Example

```
README checklist:
- Project description
- Installation
- API configuration
- Usage
- Testing
- Future scope
```

Picture / Diagram

```
PROJECT INFO → TECHNICAL DOCS → USER MANUAL → TEST REPORT → README
```

2. Project Introduction

Document the project title, problem statement, objectives, scope and the role of Gemini Models.

Tabulation

Document	Purpose
Project Report	Complete academic explanation
Technical Guide	Implementation details
User Manual	How to use FitBuddy
README	Setup and usage instructions

Coding / Technical Example

```
README checklist:
- Project description
- Installation
- API configuration
- Usage
- Testing
- Future scope
```

Picture / Diagram

```
PROJECT INFO → TECHNICAL DOCS → USER MANUAL → TEST REPORT → README
```
