■■■ Requirements
■■■ Installation
■■■ Usage
■■■ Testing
■■■ Future Scope
```

6. Usage

Open the local application, enter the requested details, select Generate Plan and review the generated result.

Tabulation

README Section	Content
Description	Project purpose
Requirements	Software and API access
Installation	Setup instructions
Usage	Running the application
Future Scope	Possible extensions

Coding / Technical Example

```
# FitBuddy
## Installation
pip install -r requirements.txt

## Run
python app.py

## API Key
Set GEMINI_API_KEY as a server-side
environment variable.
```
